

EY 2023 NJ RPS Compliance Coordination Meeting

Ronald Jackson, Research Scientist

B. Scott Hunter, Manager

NJBPU - Division of Clean Energy

July 19, 2023

MEETING LOGISTICS

- All attendees will be automatically muted during the entire presentation.
- Questions? Comments? Please use the questions function in Zoom.
- This meeting is being recorded. A copy of the recording and slides will be made available by email and will be posted on the NJ Clean Energy Program website: [RPS Compliance Reports | NJ OCE Web Site \(njcleanenergy.com\)](https://www.njcleanenergy.com)

AGENDA – JULY 19, 2023

- 1. Overview and Review of the NJRPS rules**
- 2. EY 22 RPS Compliance Results Review**
- 3. EY 23 RPS Compliance Process Overview**
- 4. GATS Load Data for NJ LSE (PJM-EIS)**
- 5. Process for Procuring, Retiring and Allocating TRECs and SREC-IIs (InClima)**
- 6. Requirements and Calculations for EY 23 Compliance Reporting**
- 7. Retail Sales Calculations and the process for making Adjustments**
- 8. Process, Procedures and Timelines for Submitting EY 23 Reports**
- 9. Review EY 23 RPS Reports E-Filing Process and Requests for Confidentially**
- 10. Next Steps**
- 11. Questions**

NJ RPS Regulatory History

- Electric Discount and Energy Competition Act of 1999 (EDECA)
 - Governor's Renewable Energy Task Force (04/24/03)
 - RPS Rulemaking (2003, 2004, 2005, 2006, 2008, 2011, 2013, 2019, 2020, 2021)
 - The “ 1st Solar Transition” (Docket No.EO06100744, Orders 2006 thru 2013)
 - Global Warming Response Act (L. 2007, c. 340, 1/13/08)
 - New Jersey's Energy Master Plan (2008, 2011, 2019)
 - Solar Advancement Act of 2009 (L.1999 c.23)
 - The Solar Act of 2012 (L. 2012, c. 24, 07/23/12)
 - The “RRF vs. Large Hydro Act” (L. 2015, c. 51, 05/07/15)
-(cont)

NJ RPS Regulatory History – (cont.)

- Clean Energy Act of 2018 (L. 2018, c. 17 05/23/18)
- “BGS/RPS” Rule Adoption (R.2019 d.100, 09/16/2019)
- Solar Transition Incentive (TI) Rule Adoption (52 N.J.R. 1850(a), 10/5/2020)
- Solar TI Proposed Rule Amendment Adoption (54. N.J.R. 379(a) 01/26/2022)
- Solar Act of 2021(P.L. 2021, c. 169 07/09/2021)
- Successor Solar Incentive Program (P.L. 2021, c. 169 07/14/2021)
- Cost Cap Rule Adoption (53. N.J.R. 1480(a) 09/07/2021)
- Recycled Material Manufacturing Facilities Act (RMMFA) (P.L. 2022, c.110 9/15/2022)

RMMFA REQUIREMENTS

The Act defines a recycled materials manufacturing facility that:

- (1) receives service under an electric public utility rate at or above 110 kilovolts delivery; (2) manufactures products made from recycled materials, provided however, that not less than 90 percent of the content of such products produced in this State meet the definition of recycled materials; and (3) employs not less than 200 employees in this State.
- TPS/BGS Providers must submit a sworn affidavit for each RMMF that certifies the number of kWh of electricity that was sold to the facility during the EY. Must also provide this information on a Retail Sales Adjustment Form.

Clean Energy Act of 2018 (5/23/18)

- Amended RPS and Net Metering Rules in NJ
- Increased Class I Requirements; 21% by 1/1/20 , 35% by 1/1/25, 50% by 1/1/30
- Class I RPS Costs Capped at 9% of EY19, EY20, EY21 Electricity Sales & 7% thereafter (subsequently amended to average costs from EY19 to EY24)
- Accelerated RPS Schedule for Solar - EY23 - 5.1%
- Exempted BGS Provider Existing Supply Contracts (Prior to 05/23/18) from new Solar Requirements – 100% in EY19, 66% in EY20, and 33% in EY21 were exempt
- *“This limited exemption for providers existing supply contracts shall not be construed to lower the State wide solar requirement...”*
- Requires distribution of the incremental solar obligation avoided by the exemption among the non-exempt electricity supplied by BGS Providers
- Revised and Reduced SACP Schedule – EY20 extended to EY33. EY23 = \$228

RPS/BGS Rule Adoption (9/16/19)

- Increased the Class I RPS obligation to 50% by 2030 (Table A)
- Increased the solar RPS for the next three EY while exempting contracted BGS supply from the increased solar obligations
- Requires allocation of the avoided increase from the exemption in a competitively neutral manner
- Removed the provision that TPS/BGS Providers can submit Class I RECs to satisfy their Class II RPS Requirements; and
- Makes the solar requirement a carve-out within the Total Class I requirement beginning in EY20 (non-exempt supply). SRECs and TRECs in EY20. SREC-IIs added in EY22 (Solar Act of 2021).

EY22 Report & Review

RESULTS POSTED ON NJ CLEAN ENERGY WEBSITE AT:
[RPS Compliance Reports | NJ OCE Web Site \(njcleanenergy.com\)](#)

TOTAL REPORTED RETAIL SALES – 73,217,981 MWHRS

Energy Year 2022 (EY22) Information

- [EY22 RPS Compliance Results \(2004 to 2022\)](#)
- [NJRPS EY22 RPS Compliance Instruction Memo](#)
- [EY22 EDC BGS Reporting Spreadsheet](#)
- [EY22 TPS RPS Reporting Spreadsheet](#)
- [Timeline for EY22 Compliance Reporting](#)
- [EY22 e-Filing Requirements Instructions](#)

EY22 RPS SALES ADJUSTMENTS

- 68 TPSs submitted retail sales adjustment requests by the September 12th deadline.
- The aggregate adjustments reduced the PJM Settlement Market by 1,321,617 MWhrs to arrive at market-wide retail sales.
- A TPS submitted a RMMF Certification for one facility.

Overview of GATS Load Data for NJ Electricity Suppliers

Jaclynn Lukach, Vice President PJM EIS

Overview of GATS Load Data for NJ Electricity Suppliers

NJ RPS Compliance Coordination Meeting

July 19, 2023

First of the month

All production
estimate
systems are
processed

6th – 10th business day of the month

PJM Settlements
Data is loaded
into GATS

7 days before last business day of the month

TPR window
closes

Last Business Day of the Month

- All PJM generators and remaining validated systems are processed
- Load obligations are processed
- Billing is processed

Daily Certification Creation – 5 Day Delay

NOTE: Generation can only be processed once a month

- Load data is received in GATS monthly, approximately six business days after the month ends
- Load value received is the scheduled Retail Load Responsibility (RLR) InSchedule in MWh. It does not include transmission losses
- Load data is viewable in GATS during the Account Holder Review Period
- Retail Load Serving Entities in GATS are billed monthly by PJM EIS based on MWhs of load served
- Small LSE's (<100,000 MWhs of load per year) are not billed based on load served
- Invoices can be viewed in GATS: Accounts > GATS Invoices
- Load reconciliations from PJM are available in GATS
- Original Load values will be displayed in GATS as before, but load will be processed on a two-month lag in order to include Reconciliations
- Billing will still occur based on the original, unreconciled load values

The deadline for generation entry this month is 7/29/2016 12:00 AM

- **S/REC**

- The Third Party Supplier is responsible for retiring Class I, Class II and SRECs, while EDC's retire on behalf of BGS suppliers

- **TREC/SREC II**

- The creation of the Standing Order is automatically processed during the generator approval process
- The pending Standing Order will be displayed in the Inbox of the Solar Incentives NJ Program GATS Account
- The Solar Incentives Admin will approve the Standing Order once a payment account is created at <https://solarincentivesnj.com/>
- TREC/SREC II certificates will be transferred to the Solar Incentives NJ Program GATS Account as they are created
- The TREC/SREC-II Program Administrator is responsible for retiring TRECs and SREC-II's on behalf of the EDC's.

EY23 Process for Procuring, Retiring and Allocating TRECs and SREC-IIs

Gary LaNoce, Program Manager, Renewable Energy
TREC/SREC-II Program Administrator
InClimate Inc.

July 19, 2023

PROCURING, RETIRING & ALLOCATING TREC & SREC-II CERTIFICATES

- After registering a generator with GATS, system owners and aggregators must establish a payment account for their eligible certificates at <https://solarincentivesnj.com/>.
- Certificates from those facilities are then automatically transferred to the Solar Incentives NJ Program account in GATS.
- Each year the TREC/SREC-II Program Administrator, InClima Inc., retires all certificates from the prior two Energy Years that have been paid by the EDCs.
- The total number of EY22 & EY23 certificates received through September 2023 are then reported to the BPU and retired into the Solar Incentives NJ GATS subaccount.
- Preliminary documents for the September 2023 Invoice cycle will be issued by the Program Administrator to the EDCs on Tuesday, Sept 5th.
 - **Any certificates created for EY23 after the September 2023 invoice will be retired the next Energy Year (EY24)**
 - **Certificates from EY22 will no longer be eligible for payments from the EDCs in the program.**
- Finally, the BPU will reduce Class I requirements by this amount and calculate allocations for each TPS/BGS Provider based on their percentage of total retail sales.

RPS REPORTING TIME LINE

Process for EY23

- PJM load figures are available to BGS/TPS in GATS (Mid June)
- EDCs Fill Out and submit Retail Sales Data Spreadsheet (By August 10th)
- DCE to Post Retail Sales Adjustment Procedure (By August 17th)
- BGS/TPS Sales Adjustment Requests Due and Posted in GATS “My RPS Compliance Report” (August 17th – Sept. 12th)
- TREC, SREC-II Administrator Retire EY 23 TRECs and SREC-IIs In GATS. Staff to Determine TREC and SREC-II Allocations (By October 15th)
- DCE Posts Final Retail Sales Figures Based on GATS Load numbers and Sales Adjustment Requests and RPS Compliance Instructions (By October 30th)
- Posted Retail Sales Numbers are **FINAL** and **Must** be used for RPS Compliance
- EY23 True-up period ends and all RPS Compliance reports are due (By December 1th)

EY23 RPS REQUIREMENTS

<u>Energy Year</u>	<u>SREC-IIs</u> ***	<u>TRECs</u> **	<u>SRECs</u>	<u>Class I</u>	<u>Class II</u>	<u>Total</u>
June 1, 2022 - May 31, 2023	based on retail sales	based on retail sales	5.10%	22.0%	2.50%	24.50%

**The TREC Obligation expressed as a percentage of retail sales in a given energy year will not be known until each energy year when the volume of retail sales subject to the RPS has been determined. Allocation of the Statewide obligation to individual TPS/BGS providers will follow the method set forth at (r) and (t) below.

***The SREC-II Obligation expressed as a percentage of retail sales in a given energy year will not be known until each energy year has concluded and the volume of retail sales subject to the RPS has been determined. Allocation of the Statewide obligation to the individual TPS/BGS providers will follow the method set forth at (r) and (t) below.

TRECS, SREC-II REQUIRED

(N.J.A.C. 14:8-2.3)

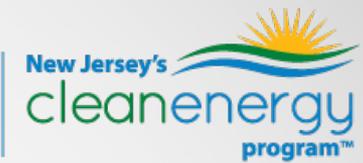

(b) Each supplier/provider that sells electricity to retail customers in New Jersey shall ensure that the electricity it sells each reporting year in New Jersey includes at least the minimum percentage of SRECs, TRECs, and SREC-IIs required for that energy year as set by the Board...

(d) Beginning in EY20, SREC obligations and TREC obligations are a component of class I renewable energy requirements, and satisfaction of SREC and TREC obligations shall be counted toward class I renewable energy requirements. Beginning in EY22, NJ SREC-II obligations are a component of class I renewable energy requirements, and satisfaction of NJ SREC-II obligations shall be counted toward class I renewable energy requirements.

TRECS, SREC-II REQUIRED CONT.

(N.J.A.C. 14:8-2.3)

(r) Each megawatt-hour (MWh) of retail electricity supplied in New Jersey by a TPS/BGS provider subject to this subchapter carries with it an accompanying TREC and SREC-II obligation. For any electricity supplied by a TPS/BGS provider, such supplier/provider shall calculate its TREC and SREC-II obligation based upon the total number of TRECs and SREC-IIs procured by the TREC Administrator and SREC-II Administrator within the applicable energy year and the market share of retail electricity sold by the supplier/provider within the energy year.

(t) During the true-up period following each energy year, Board staff shall calculate the market share of total Statewide retail electricity sold by each TPS/BGS provider. The TREC Administrator will allocate a proportionate percentage of the total TRECs procured during the energy year to each TPS/BGS provider. Each TREC allocated by the TREC Administrator shall be retired by, or on behalf of, the TPS/BGS provider. The SREC-II Administrator will allocate a proportionate percentage of the total SREC-IIs procured during the energy year to each TPS/BGS provider. Each SREC-II allocated by the SREC-II Administrator shall be retired by, or on behalf of, the TPS/BGS provider.

EY23 RETAIL SALES ADJUSTMENT PROCEDURE

- Instructions emailed and posted (August 17th)
- TPS/BGS Providers (EDCs) submit requests with written justification (August 17th to Sept. 12th)
- **All Requests must be Submitted Thru the NJBPU e-filing System. Reference Docket # QO23010002**
- <https://www.nj.gov/bpu/agenda/efiling/>
- Request not submitted by these dates will be **denied**. PJM load numbers will be used.
- Final Statewide Retail Sales Number will be posted by October 30th.

Class II REC Affidavit

Class II Renewable Energy Certification Form

Reporting year: From _____ to _____
Name of Facility: _____
Street Address: _____
City: _____ State: _____ Zip: _____
Contact person: _____
Telephone Number: _____
E-Mail Address: _____

I _____ (print name), hold the position of _____ (position held) at the generation facility referenced above. I certify under penalty of law that I have personally examined and am familiar with the information submitted in this affidavit and all attached documents, and that based on my inquiry of those individuals immediately responsible for obtaining the information, I certify that the resource recovery facility described above, continues to operate in compliance with the requirements of the Department of Environmental Protection environmental compliance determination as issued on _____ (date).

Specifically, I certify that:

- The facility named above has continued to operate in conformity with the information provided in the original application for the environmental compliance determination, throughout the year since the DEP issued the determination;
- The operation and composition of fuel for the resource recovery facility continues to meet the criteria provided in the initial application;
- Where there has been a change in the operation of the facility or composition of fuel, a new environmental compliance determination has been issued by the DEP, and documentation is attached demonstrating that the resource recovery facility continues to operate in compliance with Class II renewable energy requirements.

Enclosed is a copy of the generator's current NJDEP sustainability determination or the generator's host-state air permit.

I certify under penalty of law the submitted information is true, accurate and complete. I am aware that there are significant civil and criminal penalties for submitting false, inaccurate or incomplete information, including the possibility of fine and/or imprisonment.
