STATE OF NEW JERSEY
Board of Public Utilities
www.nj.gov/bpu/

Jon S. Corzine
Governor

Kristi Izzo
*Secretary of the Board*

NOTICE[1]

Take notice that, pursuant to N.J.A.C. 14:8-2.9(a), the New Jersey Board of Public Utilities (Board) is considering approving the use of Renewable Energy Certificates (RECs) from Class I facilities located in New Jersey generating electricity behind-the-meter issued by the PJM Environmental Information Service-Generator Attribute Tracking System (PJM-EIS GATS) for compliance with the Board's Renewable Portfolio Standards (RPS) rules N.J.A.C. 14:8 et seq. The Board intends to consider this matter at its agenda meeting scheduled for December 8, 2008.

Currently, Class I facilities located in New Jersey generating electricity behind-the-meter are issued RECs using the New Jersey Behind-the-Meter (NJ BTM) REC System, managed by Clean Power Markets under a contract with the Board. Other Class I RECs used for RPS compliance are issued by PJM-EIS GATS pursuant to N.J.A.C. 14:8-2.8.

At its meeting scheduled for December 8, 2008, the Board will, after consideration of public comments, consider issuing an Order approving the use of RECs from New Jersey-based behind-the-meter facilities issued by PJM-EIS GATS for purposes of compliance with the Board's RPS rules beginning no later than December 31, 2008, or other such date as the Board determines to be appropriate.

Interested parties may submit written comments on this matter for the Board's consideration by November 23, 2008. Comments should reference the caption and docket number (Docket No. EO08060385 – I/M/O the Use of PJM-EIS GATS for Issuance, Tracking and Trading of Class I BTM Renewable Energy Certificates (RECs) for Use in the Board's Renewable Portfolio Standards) and may be submitted to OCE@bpu.state.nj.us or may be submitted in writing to:
